REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 10-13, 41-46 and 51-58 recite fullerenes or "fullerenic" structures chemically bonded to a carbon material, with a specific concentration on the perimeter. The prior art of record in the present application disclosed fullerenes or fullerenic structures bonded to carbon black. *See e.g.* Donnet and Burden references. Likewise, fullerenes bonded to carbon surfaces (which is all that previously presented claims required) are equally known in the literature. *See e.g.* Taylor and US 5,132,105 to Remo. The search of the prior art did not however reveal the presently claimed invention with the detail required by the claims – namely, the fullerene concentration on the surface of the carbon material.

With respect to the remaining rejections, cancellation of Claim 1 as well as all other withdrawn claims moots the rejections. Accordingly, the rejections are WITHDRAWN.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
